AUTHOR'S NOTE

Marcel

In 1970, after the Army time, I was living in France. I was asking on a meditation, “What is God? What is God? What is God?” After the seventh day, I heard a voice inside of me that said:

“It's a Universal Force.”

In the same year on another meditation, I asked, “Who am I? Who are We? Who am I?” And I heard the same voice say,

“A representative of The Universal Force.”

This little spiritual book, I believe, will enhance the faith of people of any religion because we are all praying to the same God, The Universal Force That Makes the World Turn and Makes Life. We call this Divine Force differently, but we're all praying to the same Higher Power.

Since the '70s our enemy and people have been sending spies to talk to me and learn about our Divine Force and then use it in the movies. I told them, “It's not a matter of using the Force but of obeying the Force.” For example, sometimes when we are in a difficult situation and we don't know what to do, suddenly we hear a little whisper and know right away the right thing to do to resolve the situation. We call this intuition, and this is when this Divine Force is helping us.

Then they sent somebody to tell me, “You cannot use the word Force in your book because it already has been used in the movies.” I told them, “But they learned it from me.”

In the year 1988 I attended a couple of meetings with the people of “The Course in Miracles” and I explained to them about our Divine Force. From 1987 and 1988, I sold and gave away more than five hundred copies of this little book. Now, in 2006, I added and changed a few things. I hope new readers will use it as tool for meditation and prayer to help themselves grow mentally and spiritually and to peacefully wait for the Day of the Lord.

I believe some parts of the Bible are the Word of God, some parts are from the storyteller, and our enemy also speaks in some parts.

In the '80s I started to become a spiritual person. It takes time to free ourselves from all the stuff and nonsense our enemy teaches us and then to continue with the Spirituality that Our Lord expects from us.

Also, in 1988, I sent one of my spiritual books to our dear Oprah Winfrey. She sent me a letter thanking me, which made me very happy.

My beliefs and writings can be called “the Universal Faith” and that’s to start a “New Family” on our Planet. — *Marcel*

**Spiritual Civilization
for After A.D. 2000**

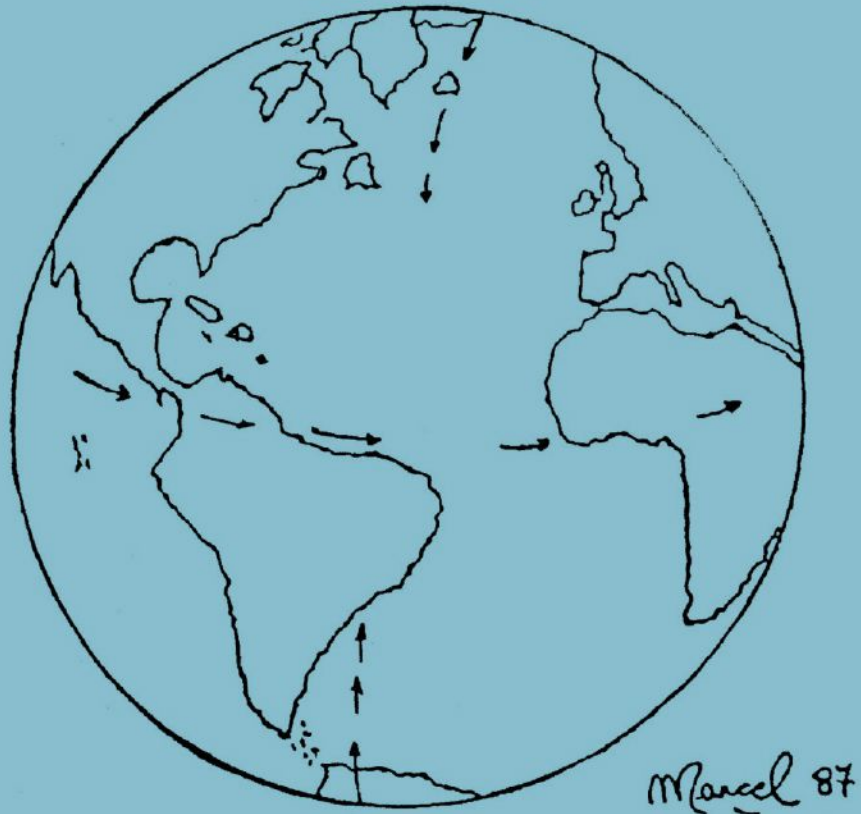

FIG. 1. What makes the earth turn is not “phenomena,” but a Beautiful, Divine, Super-powerful, Super-intelligent Universal Force. It made you; It made me.

The Universal Force

It's not phenomena that makes the earth turn. It's a Beautiful, Divine, Super-powerful, and Super-intelligent Universal Force. This Force has always been there and IT will always be there. We come for a short time here on Earth to do the maintenance of the earth, to regulate life, and to have a good time. There are many earths in the Universe. This Force sends us The Soul, or astral person, from one earth to another when our time is done here on this Earth or our material vehicle gets damaged. This Force is also inside of us. In the Bible, "...the Spirit of God dwells in you" (1 Cor. 3:16). It made you; IT made me, and the plants, animals, and things of Earth. Through good actions, IT becomes happy inside of us, "a warm, joyful feeling." Through bad actions, IT becomes sad, "a bad feeling inside." When we say the body senses, the body knows, the body reacts or produces, it is not exactly "the body" but this Wonderful Friend and Guide we have inside. Intuition is when this Force gives us an answer that was not in our mind. Also, all the systems of our body are made and directed by our Divine Force—the heartbeat, our respiration, the glands, the reproductive system, the digestive system, etc. Let's thank

THE UNIVERSAL FORCE

for

Everything.

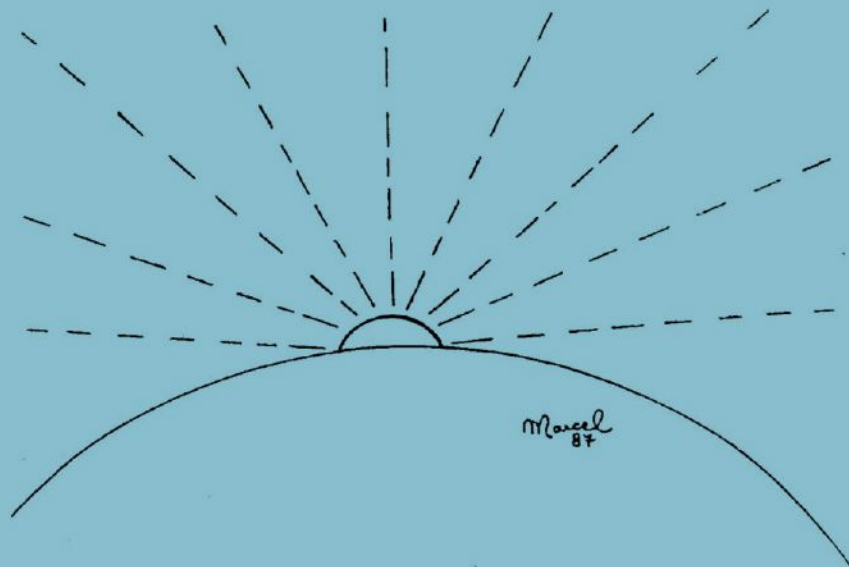

FIG. 2. Let's sit and watch the sunrise or sunset and tell ourselves, this Beautiful Universal Force is doing this. It's so powerful. Thank you, Divine Force, for making life.

A Universal Day goes from Sunrise 6 AM, to Sunrise (we don't cut the night in half), and a Universal Year starts on December 21, approximately. The Winter Solstice is when our Creator starts the new tilt to make the Winter and Spring seasons, and on the Summer Solstice, the 21th of June, approximately, our Creator reverses the tilt to make the Summer and Autumn seasons. So our Calendar is about 10 days late for the New Year.

Our Master and the Sun

Let's sit and watch the sunrise or sunset and tell ourselves this is my Master who is doing this. How wonderful is our Master. Our Divine Force doesn't have a clock, or a measuring tape, or a calendar, but It makes every turn perfectly in twenty-four hours, at the same time changing the seasons with the tilt of Earth and the rotation of Earth around the sun in a year. It is all fantastic! Perfect! Divine!

“Thanks, Beautiful Force.”

In order to become spiritually civilized, we need to believe in invisible things. This Force is invisible, but It is always there — and everywhere. Throughout history The Universal Force has given different names to prophets: Jehovah, the God of Abraham, Allah, Moses Jesus, Buddha, Mohammed, the Lord, God, and more. I like to call this Force “Father.” They're all beautiful names. The Universal Force doesn't mind at all. It likes to be called,

“Differently.”

What this Force wants now is Unity among the peoples of Earth. There are many men who look and talk like Jesus, the prophets, and the saints. We remember what the Bible says; “If you see him, you keep it secret.” Our Divine Force has a lot of people in this world doing good things and spiritual works. Our enemy is ready to jump and destroy whoever interferes with him. That's why the Church and State are separated, to avoid this confrontation. The rules of Man are different than the rules of God and Nature.

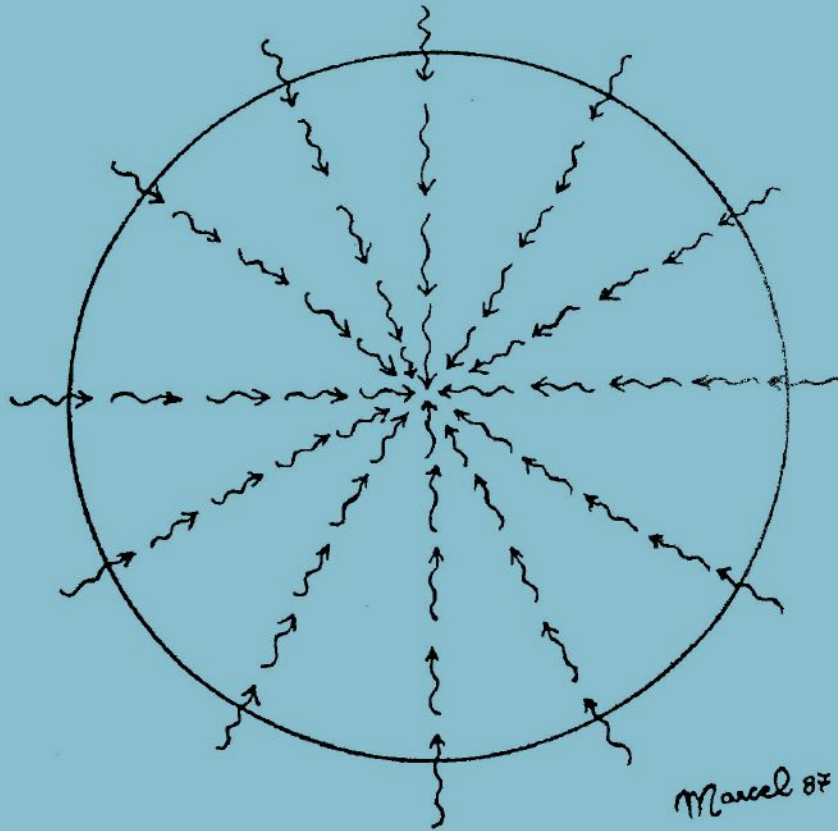

FIG. 3. Gravity is one of the laws of this Beautiful Force. Let's thank this Force for holding us, and everything in place here on Earth.

The Gravity Law

Let's think and meditate about the Gravity Law, how strong, how wonderful it is. It is also invisible. It's on top of us, it's in front of us, behind us, and we can't see it. It's one of the Laws of this magnificent Universal Force. All the positive works and research we have done through history, discovering the Laws of this Force, are very good. In the sixties we had all the clues to finish 6,000 years of research by the end of the century. In the sixties this Force gave us a strong desire for peace. It was the "dawn" of the Age of Aquarius. In other words, a spiritual civilization is starting at the turn of the century. The abuse will vanish and we'll be nice to each other. We have become materially civilized. Now we need to prepare ourselves,

and become spiritually civilized.

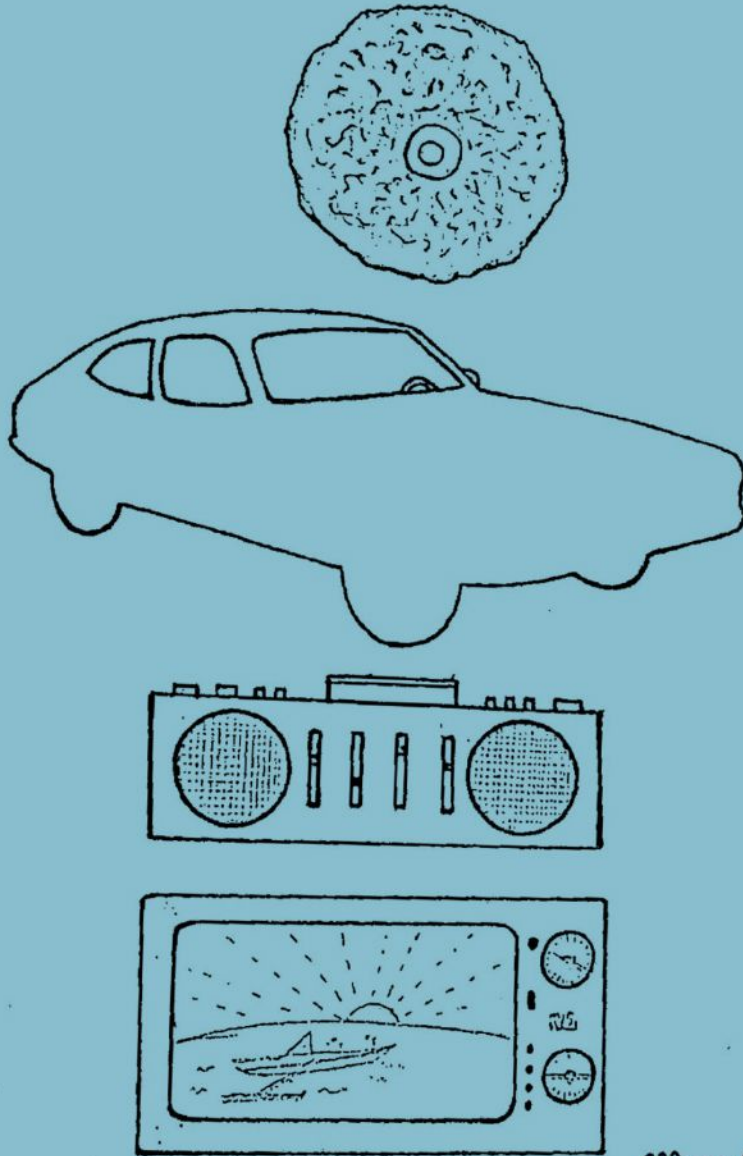

Let's thank The Universal Force for holding us, and everything together through the Gravity Law.

The Stone Age and Our Enemy

Let's think and meditate. From the Stone Age, thousands of years ago, until our days, we had a rough time. Long ago we were walking barefoot, always looking for food. We had no tools. Food was very hard to produce. There were no stores, no movies. It was rough, but this Force was always with us, guiding us through intuition, always only for good things. But some of us created our own worst enemy; inside of us is that vicious, evil, negative personality that makes some people laugh at others, laugh at things, refuse to forgive or share things, that likes to fight, likes to kill, and is subject to all the mental and sexual aberrations. "I didn't teach that" I heard from our Divine Force on a meditation. We are born good and severe. Our Divine Force is not like that; the vicious and the evil is man-made. And we love our Father's Sanctity, the Purity, the Divinity, the Righteousness, the Severity, and the Love and Goodness of the Universal Force. Our enemy tries to mix the vicious and the evil with our severe part, trying to fit in as part of the creation, but he is not. He's a great liar, a great sinner. In order to become Spiritually Civilized, we need to reject, reject, and reject all kinds of negative thoughts, words, and actions from one human being to another human being, plant, or animal. We can also be brave without our enemy.

In our right side we have the Good, Loving, and Sharing part. In our left side we have our severe part that we need to protect or correct a child, to protest against an injustice, the severe part we need sometimes in life for survival, etc. How wonderful is this Force. How many beautiful things It helps us to make with materials we got from the ground.

Our Mind is the room where our enemy lives. Also, our enemy moves the strings behind the scenes and manipulates people. All these movies loaded with violence and corruption, that's our enemy teaching his nonsense. "Monkey see, monkey do," and people imitate that. This often makes the system guilty, creating a never-ending, vicious cycle. Also with books by word of mouth, this is true. When we say, "He was a bad apple," it is not exactly the apple but the tree. It's in the Bible: "Even so every good tree brings forth good fruit, but a corrupt tree brings forth evil fruit." The tree needs help, but he doesn't want it. Also our enemy judges people wrongly, according to his dirty and evil mind.

Marcel 87

FIG. 4. From the Stone Age until today, we achieved 6,000 years of technology. We became materially civilized with cars, radios, and TVs, but the conflict continues. Now the Universal Force wants us to prepare ourselves spiritually for the turn of the century.

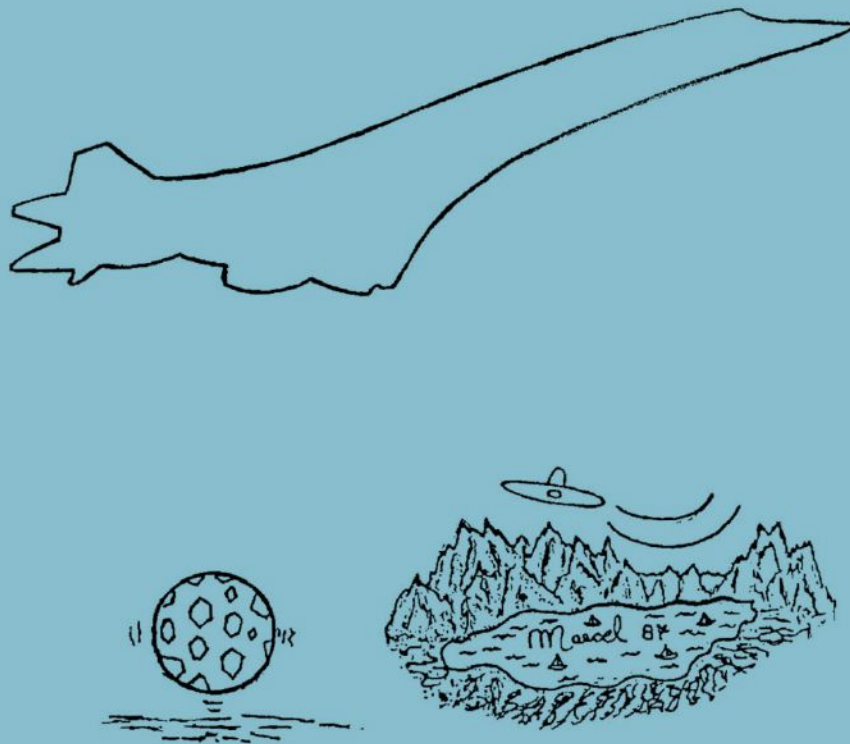

FIG. 5. How wonderful is the air; it's also invisible like this Force inside of us. We feel It, but we can't see It. Water! How beautiful it is to drink water when we're thirsty. Let's thank The Universal Force for making air and water.

The Air and Water

Let's think and meditate about the air. How wonderful it is to have and breathe fresh air. Air is another of the components made by this Divine Force for making life here on Earth. It's also invisible; we can feel it, but we can't see it. Water! Seventy percent of our material body is made of water. Let's thank The Universal Force for making air and water.

How beautiful it is to transport ourselves by air. How rejoicing it is to play with a ball full of air. How nice it is to swim or sail on the water. How pretty are all the faces, flowers, fruits, and vegetables this Force made. How good is all the food on our tables. How Divine is all the music that comes to our ears. And yet how ironic is the way that our enemy treats us.

If we want to become spiritually civilized, we must treat ourselves with gentleness, with a lot of care, be very respectful of one another. All of these beautiful things are part of that Precious Gift of Life that only comes from our Divine Universal Force, and we should love our Creator for that.

Think about all that a mother goes through in life-having the baby, taking care of him, teaching him how to walk and talk, then school, and children need to be given room to grow. She wants nothing bad to happen to this child because she loves him and always wants to help him. In the same way, we need to respect that precious gift of life in our neighbors and live in peace and harmony, rejecting our enemy's ideas of resolving problems with violence, always respecting that precious gift of life wherever we go. We must always keep in mind the Golden Rule: Don't do to anyone what you would not like to be done to you.

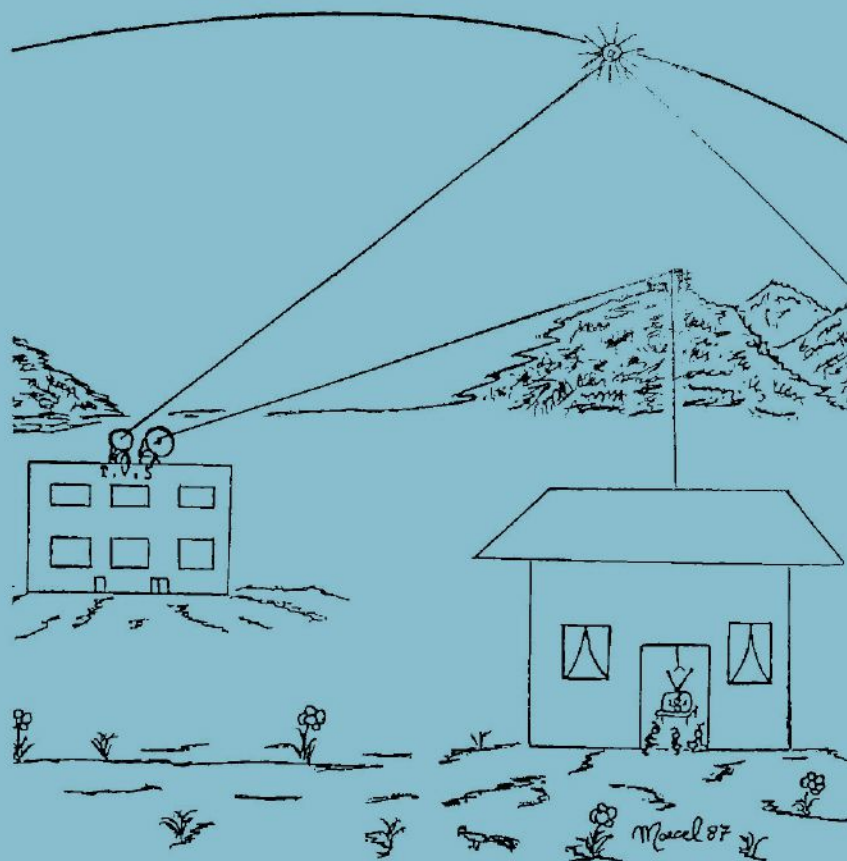

FIG. 6. Our voice and image travel through an invisible line from one place to another in fractions of seconds.

Communications

Through communications our voice and image can travel at an incredible speed, from a TV station to our TV at home, on a thin, invisible line that goes through walls.

Let's think and meditate about this "magical" world in which we live.

Through intuition, this Wonderful Force has been gradually giving us the "secrets" we need to live in perfect harmony on this Earth. Also, through a satellite, our image and voice can travel from a distance thousands of miles beneath our feet on the other side of Earth, to where we are, in fractions of seconds. All these beautiful things are part of the material civilization we have achieved, thanks to our Master, The Universal Force.

Our Divine Force has put all this beautiful technology in our hands for us to produce abundance and to bring abundance to every family and every table on Earth. We're all family. We are all sons and daughters of our Creator, and we should all live like family.

Our Enemy knows all these things but he doesn't want people to know them; he wants to be God, so he hides the real God. That's why we read in the Bible, "The blind leading the blind." He doesn't want people to wake up. When we learn all these things, we make fewer mistakes because we listen more to the little whispers of Our Father. Even when we eat, we hear a little whisper, "That's enough."

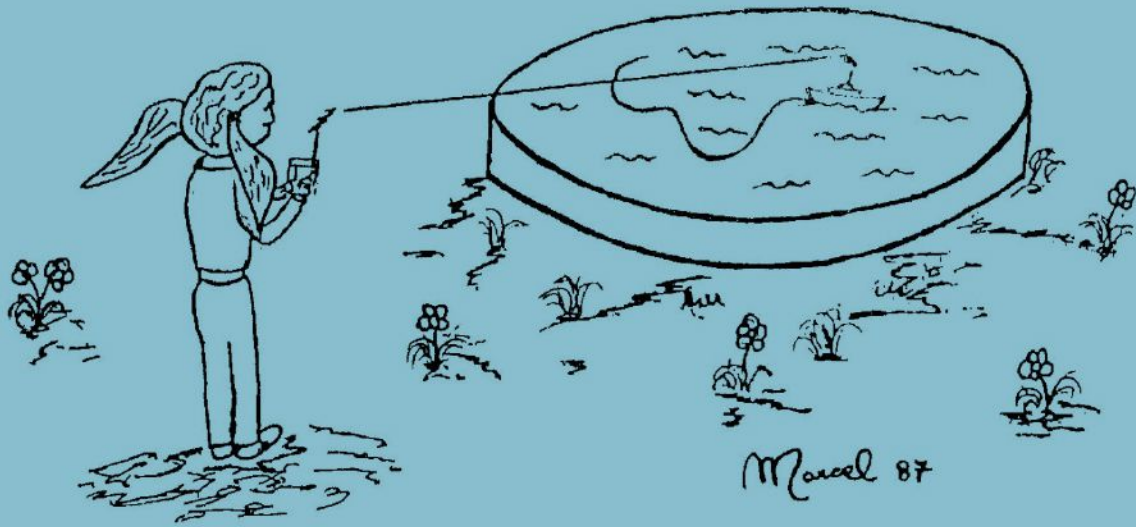

FIG. 7. How can we move an object without touching it? In order to become spiritually civilized, we need to believe in invisible things. It's also in the Bible: "And because of the invisible things of Him."

Remote Control

Remote control is another magical invisible line that communicates our control and makes an object move to our desires. Let's think and meditate on how that is made possible with the materials we got from the ground. The answer is very simple: It's all part of this Beautiful, Magical, Divine, Super- powerful, and Super-intelligent Universal Force.

We also need to remember the purity and honesty and the righteousness we had when we were growing, because that's the purity and righteousness of our Divine Force, and that's the purity we should continue with all the way through life. At the same time, we must continually reject all the pollution and bad things our enemy is trying to teach us and continue on the Path of Purity of Our Father.

Our enemy says “Yes, but they don't know.” We can explain all the Things of Life without all the malice and morbidity and the dirty negative thoughts he puts into it.

We feel friendship, affection, and respect among ourselves because we are all family, but our enemy turns that spiritual love into sex. He mixes one with the other. Any little sign of affection, our enemy turns into sex. He's wrong, and he says, “Everything revolves around sex,” but it does not. **It** is spiritual love, affection, and respect. That's why good spiritual teaching is so important. Even among couples, the two kinds of love exist.

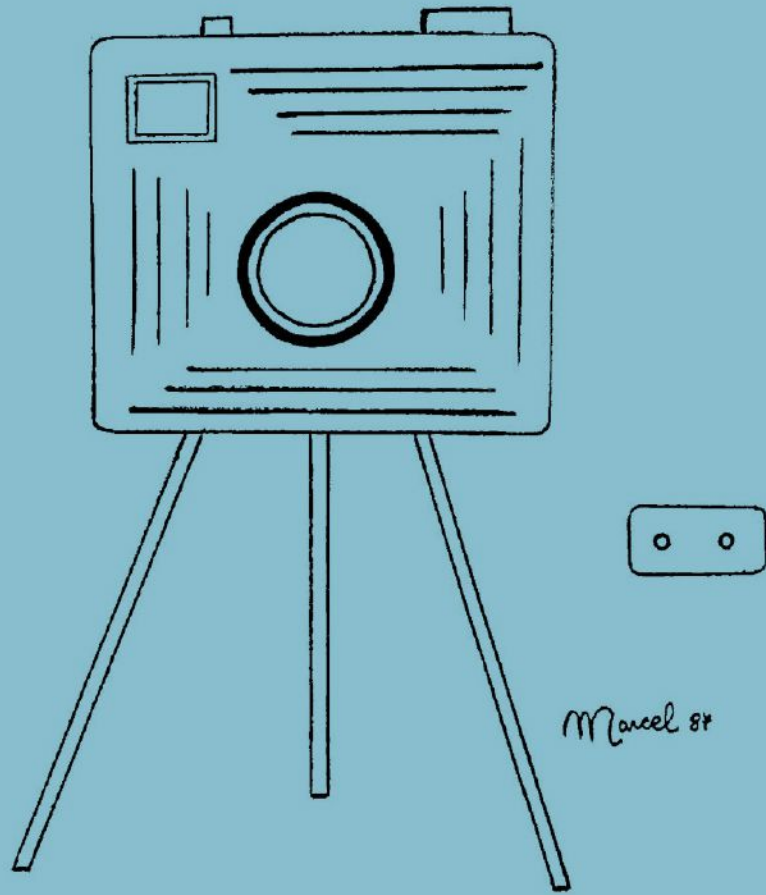

FIG. 8. How can an image or our voice get printed on a piece of plastic when it's exposed for only a fraction of a second? Through intuition, this Beautiful Force has helped us to discover its secrets.

Photo Graphics

Photo graphics is one of the wonderful “magics” of this Force. Let's think and meditate on how an image, or our voice, can get printed on a piece of plastic when exposed to it for only a fraction of a second. If we wish to become spiritually civilized, we must stop taking all these things for granted and start admiring and appreciating all these beautiful gifts from the Universal Force with a lot of love and respect each time It sends us here on Earth to regulate life, and to do the maintenance work, and have a Good Time.

To share is the key for peace here on Earth. We can win people's hearts with love and respect and sharing things with them, not with greed and violence. Our enemy, instead of fixing a problem, enlarges it, so his ugly entertainment never ends. It's a dementia.

When two neighbors are in conflict, they need to pray together and talk about how great the Universal Force is for making the world turn and making life. They must acknowledge that it is their enemy, that negative personality, that wants them to fight and hate each other. They need to reject their enemy and remember the friendship, affection, and respect they had for each other when they were growing. They need to hug each other and continue with that friendship forever and reject our enemy.

Remember that we all need each other to make the wheel spin and we are all family, the sons and daughters of Our Creator. Through intuition, God helped us to develop bows and arrows for the only purpose of hunting animals to feed ourselves and our family, not to turn them against each other. Not one single scratch should be inflicted among ourselves, because we are all family. Cat Stevens is right, “It's a Wild World,” the behavior is wrong.

There are Three Components of a Person

The force,
The soul, the spirit, or astral person, that's We,
The material body, our "vehicle" to walk here on

Earth.

That's the one we can touch. Nothing can touch the other two. They're invisible. Our enemy, a sickness, or an accident can damage our vehicle, but not

Us, the Soul.

We believe in the air, but we cannot see it. We believe in the law of gravity and electricity, but we cannot see them. That's how we are. The soul is a transparent person inside our physical body.

When a person enters his car and drives away, his spirit and body "becomes" the soul of his car. If the car runs out of fuel or breaks down, that person must leave their car. It is the same thing with our body. We are inside of it, and we make it move. If it gets damaged pretty badly, we leave it also. Death is part of life, the separation of body and soul. Sometimes we hear from a person who has lost an arm or a leg, "I still feel my leg right there." This is because he lost the physical leg but not the leg of his soul.

When we see in a dream a friend or relative who has already passed away, it is happening. We are in the other side visiting with that person. Our Divine Force has made different dimensions, different realities. That's how Super-powerful The Universal Force is to make all these things possible.

In one example, a man sees in a dream that a friend is having an accident. The very next day he learns it really did happen. Late at night we can leave our body and presence a situation like that or, in some cases, give a message to somebody.

Through hypnosis we can talk in another language from another life. It's in the memory of our soul. We the souls, we do not get old. It is our physical bodies that age.

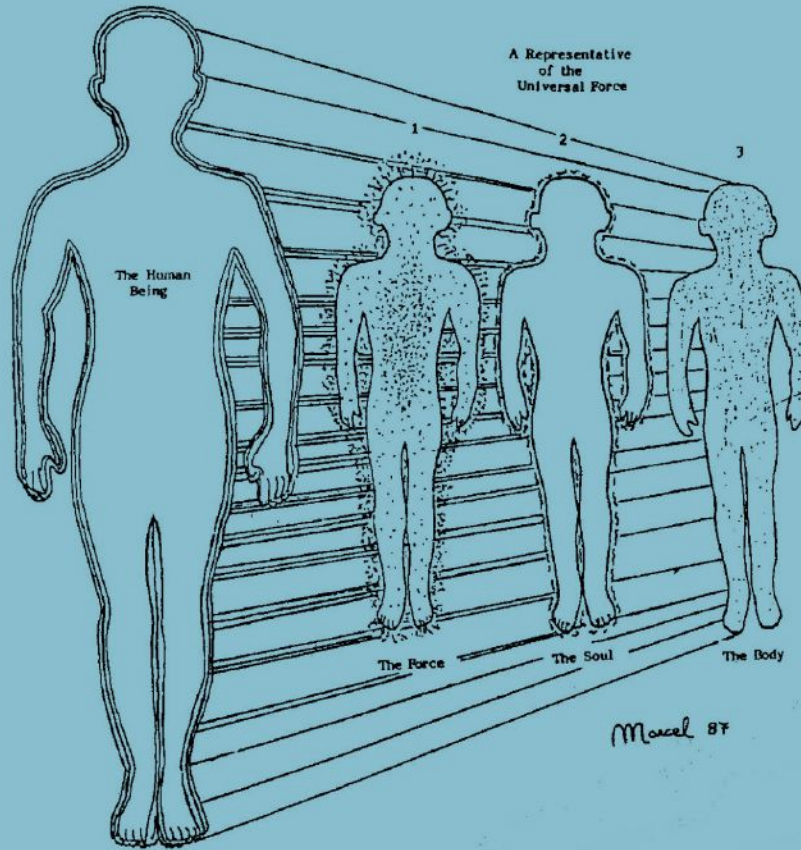

FIG. 9. Three components make a representative of this beautiful Universal Force: 1. The Force inside and around us; 2. the soul or astral person that's We; and 3. our material body-it's like a diamond, very strong but very fragile. That's the one we can touch. The other two are "invisibles."

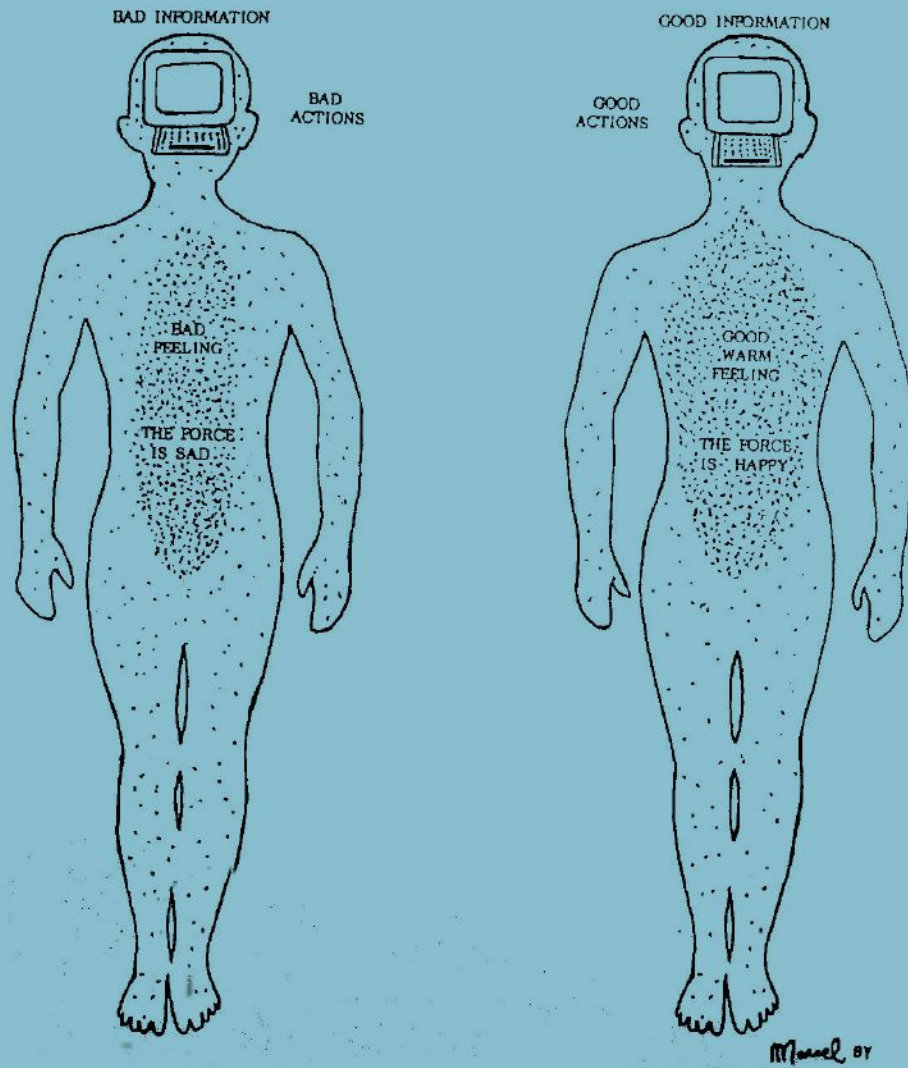

FIG. 10. Here we can see where the highest concentration of this force is inside of us. Intuition is when this wonderful force gives us information that was not in our “computer.”

The Force and Our Computer

Here we can see where the highest concentration of this Force is inside of us. It is also invisible. We feel It becoming happy through good actions; we feel It becoming sad through bad actions. Our mind is our computer. Intuition is when the Force gives us an answer that was not in our computer. Sometimes it comes in a dream. When we have a problem, let's not get angry. Let's think and meditate on what to do about it, and most of the time the Force will give us the answer pretty soon. If the answer never comes, it means we don't need that information or its not the time for us to have it. So once we "wake up" and discover this beautiful "secret" I'm passing on to you, the name of the game becomes simple: Always try to make the Force happy inside of us through good actions. Always try not to disobey and make the Force sad inside of us through bad actions. Always reject, reject, and reject all kinds of negative thoughts, words, or actions. These come from "our enemy" we created thousands of years ago inside of us.

When in danger, this Force becomes worried and excited inside of us. Let's not panic, but ask, "What's up? What's wrong? What shall we do?" Pretty soon this Force will give us an answer, and if we follow that instruction, we'll be able to overcome that danger. When our enemy takes us over and we think in a negative way, that's when we hit our finger with the hammer or we spill the coffee on the table. Our calculation was good, but the Force can disturb it to let us know we should "think positive," or "I don't want you to think in a negative way."

Always think positive.

We, The Soul, The Representative of the Universal force

There are many earths in the Universe. When our mission is done here on this Earth, or our material body or vehicle gets damaged, the Universal Force sends us for a rest and, after a long or short time passes, then returns us to this Earth, or another, with a brand new vehicle. When one of us leaves a material body not enough damaged, we shouldn't bury his or her vehicle so soon, but after a few days. If this Force stays in, the body is "in coma," and we might reenter it. If it begins to give signals of decomposure, it means this Force is no longer there. Thus we could avoid these kind of experiences, like the person who "woke up" in the middle of the night, in the cemetery. They opened the grave again and found out that the soul had come back and passed away from a lack of air, and from struggling to get out.

Sometimes a soul or entity or an angel can come and gives us a message in this dimension that we call reality. That's when we hear a voice next to us about two feet away, sometimes several feet away, that sounds as if the source is covered with a whole bunch of pillows or as if a person talking on the other side of a wall. We hear a voice that is not loud. Sometimes that soul can materialize, give a message, and then fade away. Throughout history there have been many apparitions, like the apparitions of Jesus after the third day, the Virgin Mary in 1947, the Lady of Fatima in 1917, etc.

In the 80s, one early morning, I saw one of my deceased family members walking in a corridor; that confirmed my believe in ghosts. Also, on another occasion, I was in bed, overtired to go to work, and I felt two fingers pressing gently on my right leg and I heard a feminine whisper "you have to get up, otherwise you'll be late for work." That motivated me to get up-that lady angel or entity has helped me a few times.

In our soul or astral person, we can travel through "The Universal Force Will" from one Earth to another at an incredible speed, through a nice, warm tunnel. In order to become spiritually civilized, we need to trust this beautiful Universal Force blindly. There's nothing to be afraid of once we wake up and understand how this Force works.

FIG. 11. In our Soul we can travel through the Universe.

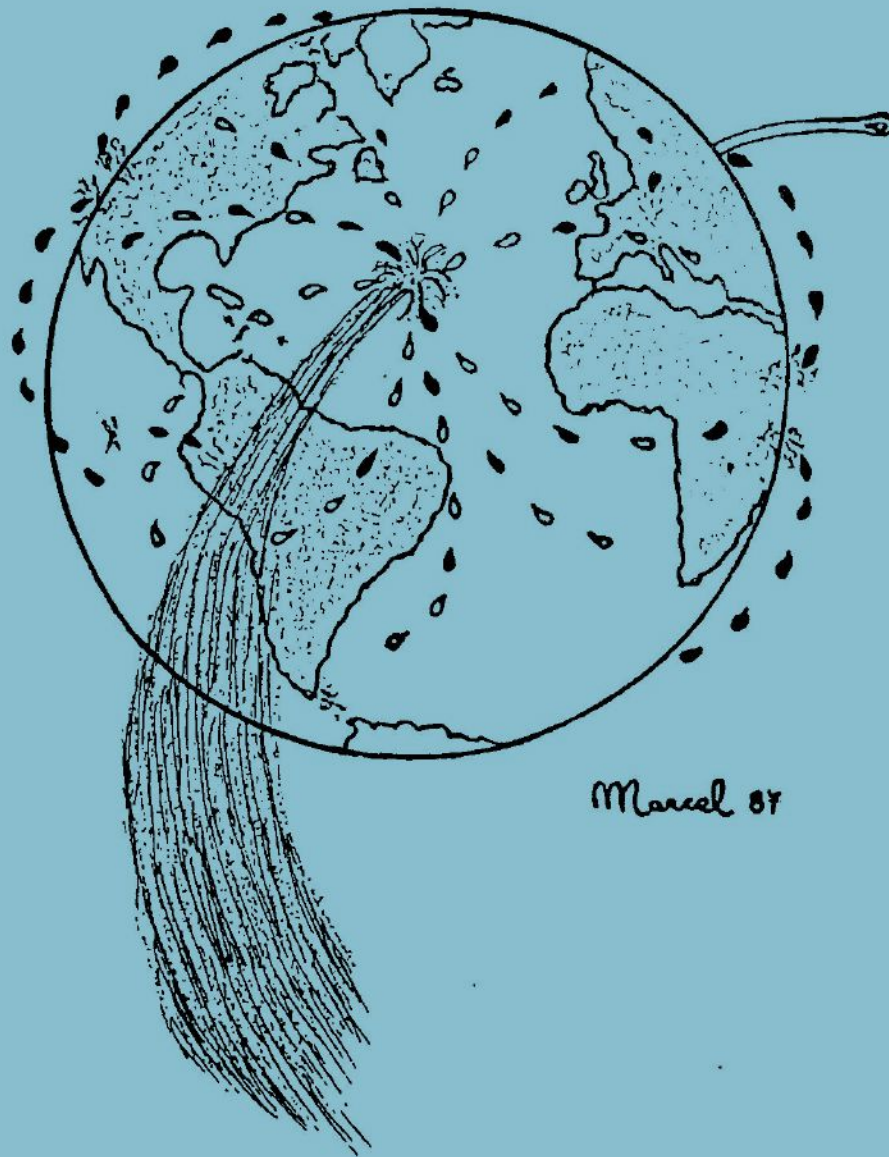

FIG. 12. This Force knows about our enemy, and It's going to remove it from the planet Earth right before the End, and peace shall remain through the years to come.

A few years after this dream, I found it in the Bible in Revelation, Chapter 9: “And the fifth angel sounded and I saw a star fall from heaven unto the earth; and to him was given the key of the Bottomless Pit, and then he opened the Bottomless Pit.”

The Armageddon

The Universal Force knows Man is in trouble here on Earth because our enemy that we created became our master, and now we cannot get rid of it. In Spring 1983, I asked this Force in a meditation: "Father, is there going to be a nuclear war?" Sometimes this Force speaks to us, not through intuition but just like having a radio inside our chest, and that day I heard inside of me a deep voice that said: "No, it's a meteor." That was in the morning. I didn't think about it anymore, and the next morning before getting up, I saw in a dream the Earth turning. Then suddenly "something" went through the air. Water splashed like tears, lava splashed like blood drops. The dream repeated itself twice, one time after another. Then I knew it was a message.

We can trust blindly this Universal Force. There are hundreds of thousands of meteors or comets traveling in the universe at incredible speeds. The moment this Force knows that a computer or someone is seriously planning an attack. It will divert one of them to planet Earth. A sun blast and other meteors, comets, balls of fire, asteroids, etc., may also come. The Archangels have the power to divert them into our planet. If the people of good faith are not able to conquer our enemy and bring the Kingdom of God here on Earth, God is going to reclaim the Earth from us.

The New Beginning

We're going to another mansion, but Only the Good Souls. Only a handful of beautiful and positive people will start life again in that New Mansion in Heaven that the Universal Force has prepared for us, the Good Souls.

In spring 2004, twenty-one years after that dream of the star or mete- or opening the Bottomless Pit, I saw on another dream a tremendous explosion. It sounded so hard and loud my ears could barely take it, and the earth shook so hard, 3 feet up, 3 feet down, so fast, and the explosion went on, and on, and on, and it wouldn't stop. Then I saw all kinds of debris falling down, and I thought "It's the meteor." Then when I tried to move, I couldn't. Instead I saw myself a Transparent Person moving forward about 5 inches out of my body, then I rested back on my body and asked myself, "Am I Already Dead?" Yes, my body was dead and I was Free To Go on my Soul or Astral Person. I think the "Day of the Lord" is coming. I think the "Rapture Of Souls" is very close, and only the meek will inherit that New Mansion in Heaven, and there will be no more tears on people's faces, and there will be peace and harmony, and the love and sharing, the friendship, affection and respect that was meant to be. And our enemy won't be there teaching the Greed, the Violence, the Corruption, and Vicious and Evil Things.

The Aura of a good Soul has the Rainbow Colors, and the Aura of a Bad Soul has a dark grey color, like the clouds when it's going to rain, so no one with that dark grey aura will be allowed on that warm tunnel of light. It will be guarded by Angels and Archangels. In that New Mansion they will share things like a "Potluck" where everybody brings to the table whatever they can, then they serve themselves like family because we're all sons and daughters of our Creator, the Universal Force, that makes the World Turn and that Makes Life. And they will produce first quality for everything and everyone. And they will rotate around the earth, doing the maintenance, regulating life, and having a good time. They'll know the key for adaptation is love the heat, love the cold, love the mountains, love the desert, love, with honor, every corner of the earth. They will remember that our Divine Force is the Owner of the Planet, the Galaxies, and the Cosmos. They will remember the words of Saint Mother Teresa, "You surrender to God, and you give with love, you share things." Such beautiful and wise words, it's easy to recognize Our Father speaking through her. And they will remember the words of the Pope John Paul II in the 80s, "It's a modern slavery," and the greed will be gone, and they'll live in perfect harmony.

FIG. 13. Only a handful of “Good People” will inherit the New World, and all this beautiful Technology will fall into their hands, and they'll use it for Good Only.

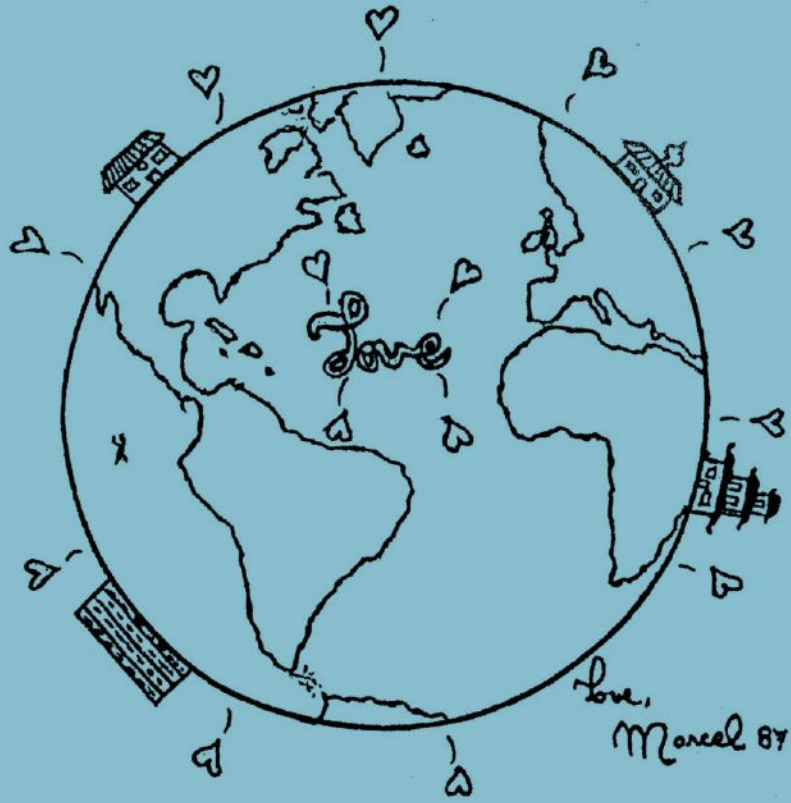

FIG. 14. This beautiful handful of people will make "of Earth a Paradise."

The New World

This handful of people chosen to regulate the affairs of Earth by The Universal Force, will have a little bit of extra work on the New World, but little by little, they will make a paradise for everyone, and then everything will be so well organized that they'll have extra time, every day, to keep earning things, to be creative, to exercise, and for

LEISURE.

They will remember this wonderful man that this Force has sent to Earth over and over with the same message: "Love and respect one another." "Share the things we grow and make." "Serve one another." The Earth language will be English, the easiest one, and the English-speaking peoples will learn a second language of their choice to honor the other languages. Animals will be pets and they will live in perfect harmony with people.

When we see in this world that some governments are paying some farmers money for not growing food, and in some countries the farmers are throwing away some of the food they produce so the price won't go down, and on the other hand 40,000 women, men, and children are dying every day of hunger, that makes our way of living awkward. The ancient rules don't fit any longer with our modern technology. We need to react and welcome new ideas. Otherwise Our Divine Force and the Archangels are going to turn against us. Only God knows if it is too late or not. All this misery and hunger goes against the Commandments "You shall love your neighbor as yourself," and "You shall not covet."

FIG. 15. Abundance for everyone, promises the Universal Force. Good times are coming!

When we use organic fertilizers, the plants grow more robust, they don't need dusting, and they produce more.

Abundance

For everyone, promises this beautiful Universal Force, after the turn of the century, this handful of wise people will know how to use but not abuse everything for our needs. Good times are coming in that New Mansion. They won't waste anything. Everything will be recycled. They will let our bodies decide for us if we are vegetarian or not. Without our enemy, and with all this beautiful technology, they will produce abundance for everyone. Throughout history man has been hunting and fishing for thousands of years; we cannot change that. One thing we can change is the quantity and how we eat it. Instead of a big steak, all we need is a three- to four-inch steak, and we're suppose to chew it until it becomes like a compote in our mouths; otherwise, the digestion takes forever. Some people blame steak for heart attacks, but it is the exaggerated quantity and the lack of exercise which is as important as the food. Exercise is a must for good health.

All the good works and discoveries that Darwin and other scientists have made are excellent, extraordinary, and an enormous contribution to our world. Darwin said "One is astonished at the amount of creative force." That means that in his meditations about God he may have heard "It's a Creative Force." That is very good! So he also believed in God. In his time it was unknown that our Divine Force had made different chromosomes and genes in each species so they don't cross each other. It is a good thought or theory to think that the man-ape began to evolve into *homo Sapiens* many thousands of years ago because of the extraordinary similarity between man and the ape, but once we learn that this Creative Force has made different chromosomes and genes in each species, then we can see the reality. When we work hard, this Force builds the calluses on our hands; that's a natural evolution. The caterpillar becomes a butterfly; that's also natural evolution. People in different parts of the world, from an early age, learn to dive without oxygen tanks, and they can stay underwater for three to five minutes without breathing and their ear drums are not damaged in deep water; this is also natural evolution.

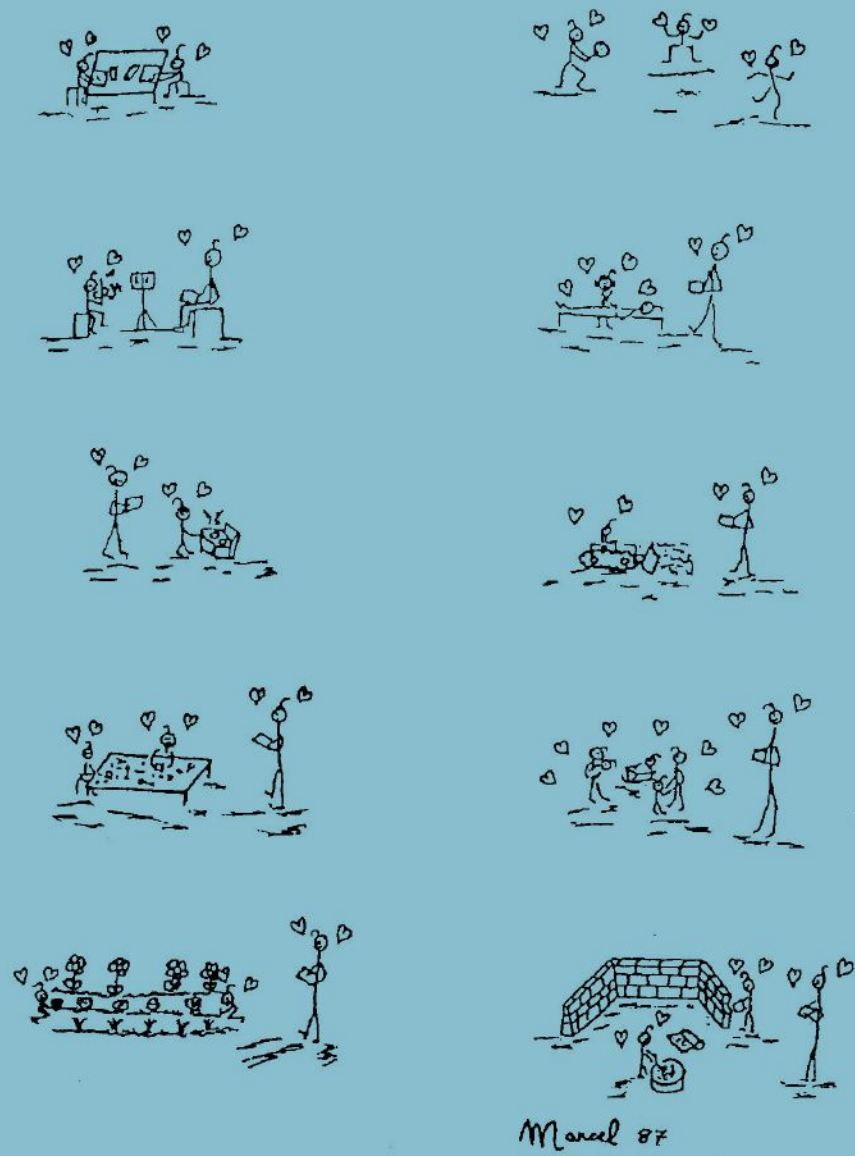

FIG. 16. We're all a "genius" at something. These people will discover that secret in us at an early age.

We're All a Genius

This handful of people will teach their children that in everything they do to serve one another, it's very important to always think and talk positive and do it with love. They'll also know that we're all a genius at something. At an early age they will discover the secrets that these small persons bring inside. Giving priority to this, by the age of nineteen they'll be ready to serve one another. Also, they'll learn about The Universal Force at that age, and they'll feel much more secure. As our enemy won't be there to teach bad things, they will love "big children with wrinkles." They won't distinguish; it's all a natural part of life.

Also, after the turn of the century, people will know how to admire without desire the beauty of a human being, like the little persons do. In the Bible, "In the eyes of the pure, all things are pure." The Pattern for both male and female will be the same. They'll grow together, play together, work together, and they'll know how to be brave without our enemy.

They will also know that Our Divine Force is not a he or she. This Force is neutral. It designed a woman differently than a man and a man differently than a woman in order for both, through love and marriage, to be able to continue life here on Earth. It is our societies that separate boys and girls and teach both how to think and dress differently, how to act and do things differently, but we are the same, only different designs. A woman can also become a hunter, a man can also become a cook, and we all need each other to make our living possible, serving one another.

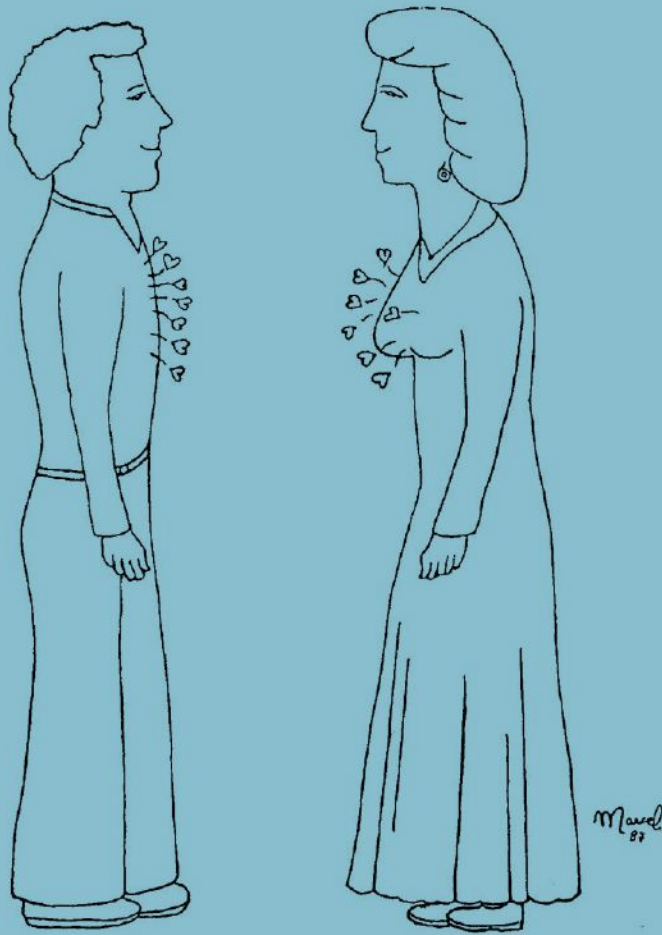

FIG. 17. The Universal Force made only a man for a woman and only a woman for a man, and only if it comes, from the heart.”

In the eighties, I saw on TV a new way couples can enjoy life. Standing face to face, she places her hand on his heart and he places his hand on her heart. Their other two hands hold each other. And they look at each other with love... and magic happens.

Marriage and Sex

The Universal Force made a man for a woman and a woman for a man. Anything other than that is an offense to this Force. When the marriage of the spirits takes place or happens, paper signed or no paper signed, it is valid in front of this Force, but only if it comes from the heart, if they're really in love. Other than that, we are offending The Universal Force, our Master that made you and made me and that makes Earth turn.

For us to become spiritually civilized, we need to look at sex as a very beautiful thing. Sex is very important. It is through sex that we continue life here on Earth. Our enemy has taught us negative things about it. Reject, reject, *reject*, all these things, and think beautiful about it. After the turn of the century, the decision about whether to have a baby or not will be made by both the man and the woman before going to bed. If a child comes out of their beautiful act, she or he shall be welcome.

The best way to teach them how to abstain is to show them the birth of a baby so they know what it is for that a man deposits the seed into a woman. In the Bible it's "the forbidden fruit." This way they'll have more respect for it and more respect for women. At the Judgment Day, we're all going to know who was right and who was wrong.

Also, we need to know that the last way to release these beautiful sexual feeling that this Force produces inside of us, which is energy, is through sexual action. If we go jogging, swimming, or do some kind of creative work, these energies will disappear. The less we use this energy, the more we enjoy it. In front of this Force, prostitution has never been, and it will never be, a profession. It is a big offense to The Universal Force.

Love, Marcel, a humble servant of Our Father.

Finished on the 7th of December, 1987, at 1:37 A.M.

In January, 2006, I added a few things, changed a few things, and added a few pages, enhancing this little book.

—Albuquerque, New Mexico, U.S.A.

Our Miracle

On September 8, 1988, the fires continued burning out of control in Wyoming in and around Yellowstone National Park. They had been burning already for months. At approximately 8:00 A.M. I made a prayer facing north with my arms open: "Father, please, Divine Force, can you please turn off those fires in Wyoming at the National Park?" At the end of the prayer, I felt a strong burst of joyful feeling inside of me that lasted for several seconds, and during those seconds I experienced something like a kind of a ray or a line that jumped straight up from my chest. The ceiling became clear and I could see the ray, and then it curved, and curved, and went and made contact with the North Pole. At that moment a blast of Arctic cold air started moving south. Somehow I knew what was happening then I said "Thank You, Father, so much!" I almost called the weatherman on T.V. to tell him, "There's a big storm coming and it is going to put out the fires!" but I was cautious and waited.

The next morning Paula Zahn said on the news, "There's been a miracle," and she explained that a cold front with snow and rains came down and put out the fires, and they showed the firefighters warming up their hands with a small fire they had made. There was snow on the ground and the enormous fire was gone.

Some people heard my prayer, and they knew a miracle had happened. The devil also heard and saw the miracle we did. That was a tremendous wake-up call for our enemy, but I was surprised by his zero reaction, as if nothing had happened. He's wicked and evil and he doesn't care, and that's why he couldn't react and make an effort to become righteous. The greed and the violence continue, and the corruption and vicious, evil things continue. The beast doesn't believe that the End of the World can happen, but all these asteroids and meteor craters in this planet tells us that it has already happened and it can happen again. The devil is a fool. He is mentally blind.

The forces of nature react to Man's good or bad actions.

Our Divine Living God and the angels are watching us.

General Information: How to Heal Ourselves

It takes a lot of time for people to come into this world and realize how wrong it is. We are born pure, but our enemy lures us into a big pool of corruption and vicious, evil things. Then we reduce our purity, doing and imitating all kinds of bad things. We start developing that negative personality of our enemy. Even on children's cartoons, we see our enemy is teaching his bad things, and we know some people are going to get in trouble, even go to jail, for that. That's why the younger we are, the better it is to learn that our Divine Force is inside of us and through bad actions becomes sad; we feel this as bad feelings inside. After we learn that and we start obeying more and listening more to our intuition, we know it is our Divine Force helping us. It is possible to regenerate ourselves if we feel uncomfortable with our negative actions or sins, if we experience that bad feeling inside. It is through a lot of prayers and talking to God, admitting our sins and asking for forgiveness in our prayers, feeling remorse and repentance, that slowly the bad feeling inside starts to fade away. When we experience that peace within us is when we are forgiven. Our enemy tries to get real drunk to escape from that bad feeling, but that's not the solution.

It is not what our enemy thinks, that through the blood of a sacrifice our sins are redeemed. Remember, our enemy is not happy if he's not watching fights and blood and people or animals dying, and they're still making secret sacrifices today. Only through good prayers, repentance, and feeling remorse for our actions are we redeemed from our bad actions. That negative personality of our enemy is like a cancer: the sooner we try to heal it, the easier and better it is. The more our enemy develops within a person, the harder it is to get rid of it. Sometimes it is impossible to heal, and that's a lost soul. It is very important to be a good person, to be on the side of God and to only do good actions. Our Divine Force and the Angels are watching us.

Always continuously reject those bad actions and teachings from our enemy. Continue the purity and righteousness we were born with, because that's the purity of God, our Creator, and our Divine Universal Force that makes the world turn and makes life. We feel much better when we are on the side of God, follow our conscience, and do only good actions.

Our enemy thinks he can do all kinds of bad things and bad actions and that God is going to forgive them right before the body and soul separate, and that he's going to heaven. Not so. For a person who has sinned all his life and has not felt remorse or repented and continues to sin to their last days, it is very hard to get all that evil stuff out of his mind, almost impossible. After body and soul separate, he is going to find himself on a bad dimension with bad souls, and *he's not going to like it*.

In the '70s, a group of tourists in the Middle East saw from their bus a bunch of Roman soldiers. They looked very dirty and sick, hungry and thirsty, walking back and forward in the desert. Sometimes our Divine Force shows us people from a different dimension in order to teach us something. The teaching here is *((Yes! There is punishment for the bad souls.))* That reminds us of Revelations 9:6: "And in those days shall men seek death (the second death) and shall not find it. And shall desire to die, and death shall flee from them."

If man wants to make progress mentally, physically, and spirituality in this world, he should stop listening to what the devil is telling him to do, and use his conscience, his heart, and positive thinking to make decisions. The devil is getting man into trouble. With all his awkward and twisted ways of thinking, our planet is in *big* trouble.

The Bottom Line and Facts

The bottom line is, the planet is hungry, and man failed to “surrender to God” as Saint Mother Teresa told them a few times. We read in the Bible, “The Lord will provide.” Yes! Our Father gave man all this beautiful technology through intuition to produce abundance and to share abundance. Our enemy says, “There's nothing wrong, everything is fine,” because he is evil and he doesn't care. All this poverty in our world reflects the mental poverty of our enemy.

Forty thousand women, men, and children continue to die every day of hunger. The wars continue as our enemy teaches people to resolve problems with violence. It's a business to make wars; the military-industrial complex makes millions with it, so they don't want the wars to stop. And they don't care about the human loss—all they care is about the money. That is one of the false gods, the money. They go crazy for the false god. The military-industrialists are far overpricing jet fighters, tanks, bombs, etc, and putting a label of “top secret” on those factories so they cannot be investigated.

The rapes and murders continue; the domestic violence continues; 4,000 abortions are performed every day in the U.S.—probably 40,000 abortions a day in the planet. Our enemy is wicked, and he cannot abstain. He has an obsession and an addiction for sex. And that's what he teaches, “Everybody do it with everybody.”

Also I saw on that movie “The Coral Reef” they show some parts of our oceans as completely black—no life, no fish, no plants. They're killing the oceans with pollution because it costs money and people to recycle. If we don't take good care of Earth, God's going to reclaim it from us. Our enemy is free on the loose, teaching all his awkward things in movies and books, or the computer, and by word of mouth. The planet is hungry and Man failed the test with God. Now come the terrible consequences.

As we know, our enemy rejected and crucified Jesus the First about 2,000 years ago for being a good man, for speaking the truth, and for trying to save man from all the greed, the violence, the corruption, and the vicious and evil things the devil is teaching. Man cannot get rid of the devil. *It's an evil world.* It is in this dimension that we call reality that we're supposed to heal ourselves from all the bad things that the devil teaches if we want to go in our souls to a better dimension, to another mansion in the Universe.

Then we saw the Saviors of the '50s and '60s also died for being good, for speaking the truth and for trying to do good things for the people. In the museum of Roswell, New Mexico, that is dedicated to the extra-terrestrials, I saw a letter from President John F. Kennedy. He wanted to talk and introduced the ETs into our world. The ETs have a different philosophy. They're not greedy, and that's the reason for the cover-up. The Kennedys, with the help and wisdom of the ETs, would have saved the world. Bob Dylan was right, “The change won't come again.” The ETs like to share things and live in peace and harmony. I see them all the time in the sky. Once I was looking to one of them with my binoculars and I waved and said, “Hi.” They flashed the lights for me green, blue, yellow, etc. I believe some people on our planet also have the flying

saucers already. On the Day of Judgment the ETs are going to rescue some of us. We shouldn't be afraid of them.

The Second Coming was announced by Comet Halley in 1986, and He appeared with a little book teaching the Word of God, but He was rejected also by the devil. Our enemy followed Him everywhere and manipulated people around Him and against Him, laid traps for Him, played games with Him, attempted against Him, made Him sick putting things in his drink or food, made Him sick with some weird smells, etc. Our enemy took Him into a room full of knives and swords on the walls and asked Him "Which one do you prefer?" He understood the double sense of the question, meaning, "Which one do you want to die with?" He told the devil, "I prefer meteors and hurricanes; we're going to have an earthquake," and the next day our Divine Force made a big earthquake (L.A., 1994) and the devil backed down again. He couldn't talk; He couldn't teach; our enemy would not get off His back. They told Him, "We'll help you to publish it if you're willing to die for it." Later on He told the devil, "Now we're going to die together" in the Armageddon or on the Day of the Rapture of Souls. They wanted to produce Him in L.A. with His singing, but the devil said "NO." Because of His different philosophy, they closed all the doors to Him. He was going to have an interview with the newspaper and the devil wanted to jump on Him. An Archangel made a hurricane that was coming straight to them, and then the devil backed down. On another occasion He was trying to sell His little book in a plaza. Our enemy came right in front of Him, giving Him a real mean and bad look meaning "You're dead."

The day of the attempt came, and the sky was blue. The birds were singing; it was a real nice day, but after lunch an Archangel came from the north with a huge dark purple, blue, and green cloud very strongly and covered all the sky very fast. Then a big storm started with buckets of water and a lot of lightning. The streets became rivers, the houses were shaking with 60 MPH winds, and once again the devil backed down. These kinds of things happened many times, for years. The Second Coming was rejected; now He's not here anymore. He's history. Our enemy wanted to make Him famous for a short while and then kill Him. He said, "I'm not here for that." The devil wanted to put words in His mouth and manipulate Him all the time with total control. Now it's time for the Third Coming.

On July 17 to 24, 1994, a long string of big comets slammed into Jupiter. Some scientists thought Jupiter was going to explode. One of the craters in Jupiter is as big as Earth. That was our Divine Universal Force and the Archangels preparing us for Armageddon. We shall always be prepared.

The Third Coming of Corinthians announced himself with Comet Hale-Bopp in 1997. The archangels have the power to divert stars, comets, meteors, etc. That was Jesus with some Archangels announcing himself with Comet Hale-Bopp. We read in the Bible, 2 Corinthians 13:1-2: "This is the third time I'm coming to you. In the mouth of two or three witnesses shall every word be established. I told you before and foretell you as if I was present the second time, and being absent now, I write to them which heretofore have sinned, and to all others, that if I come again, I will not spare." That was our Divine Universal Force speaking through Jesus two thousand years ago. There's a very famous saying in Latin America, "*Uno propone, y Dios dispone*" meaning "Man proposes and God disposes." Well, that's the reality today. Man and our enemy proposes to continue with the greed, the violence, the corruption, the pollution, and the vicious and evil things, thinking and hoping nothing is going to happen-very unwise thinking. But God and the Archangels dispose "to not let it continue." Our power is miniscule, but the power of the Universal Force

is immense. The mental blindness of our enemy doesn't let him see that the end is coming. He refuses to believe in the Rapture of Souls or the Armageddon or the Day of God Almighty.

In 1998 we saw the two Antennae Galaxies colliding with each other. The planets crashed against each other and that was a tremendous cataclysm. That reminds us of what we read in the Bible, "Behold, I make all things new." Right after the collision, some new planets started forming, rotating and organizing each other. In our soul we can materialize again in eternal matter, not flesh and blood. It's holy matter.

Then the apparition: In July 1999 we saw a big face of Jesus, shiny and transparent, a divine face. We knew that was Jesus, the Third Coming of Corinthians. Our Divine Force transformed His soul into an Archangel and gave Him power. We remembered what He said: "This is the third time I'm coming to you," and, "being present the second time," and, "I will not spare." There is a time for everything in life, and the time to heal our planet is gone (only our Divine Force knows if it's too late or not). In that same year, 1999, we told a very important lady in a dream or different dimension, "We're going to another mansion, but only the good souls," and we also told her husband in the same way, "You know it's the end of the world, and you have to accept it," and he nodded, "Yes." Also a lady angel or entity said to me, "Death is coming; all that they're doing is artificial." And I heard another entity say, "In this time of end." It was a feminine whisper that I heard. Then in August 18, 1999, the planets formed a grand cross in space (that day there was a big earthquake in Taiwan). The meaning of that sign is, "The planet is going to the Cross." Man and the Beast are disobeying God's commandments. They did not surrender to God like Mother Teresa told them. They did not make a U-turn from all this materialism into spiritualism, and the greed, the violence, the corruption, and the vicious and evil things continue. I heard in my meditations, "It's beyond repair." Man can- not get rid of his enemy. That's why Divine Intervention is coming. Only God and Jesus the third and the Archangels can free our planet from our enemy. We were supposed to announce Jesus' apparition right away in July 1999, but we announced Him in April 2002. The Third Coming was supposed to be here on Sunday, April 13, Palms Day 2003. A few years later on the tenth of April 2005, Our Father made a beautiful snow here in Albuquerque, three years after the announcement, and I heard a whisper, "That's for announcing me." Then on my lunch prayer around October 2005, I heard another whisper: "Jesus is coming on the thirteenth of December." So I said my prayer, "We're going to have a surprise on December 13." Our enemy and some people heard me. And then on December 13, 2005, Our Father made a beautiful and only snow in that month. December is the month of Jesus, and the thirteenth means, "Be prepared for Jesus of Chapter 13" (2 Cor. 13). Our enemy is mentally blind, so he doesn't see the End coming and he refuses to believe that it can happen.

Also in November 2004, man may have lost his very last chance to surrender to Our Father. Our enemy that moves the strings behind the seeing knows how to switch numbers around in order to preserve what the Pope called in the '80s, "the modern slavery." But according to the Bible they made the right mistake, otherwise our Divine Force wouldn't have told the prophets 2000 years ago that "The end of the world is coming," and that's why we saw on December 26, 2004, this first great cataclysm, the tsunami. Our Divine Force lifted the ocean floor in one place from 4,000 feet to 100 feet, and then all this water spilled into an area bigger than the U.S. continent. The satellites saw Earth wobbling while this was happening. And that reminds us that the days of the Great Flood are coming and also what we read in

the Bible: "When the end of the world comes man is going to see great cataclysms never seen before since the beginning of the Creation." Also, all the devastation of the recent hurricanes is another great cataclysm. The rules of man are different than the rules of God and Nature. The rules of God are based on love and respect, sharing things like in family and our living in peace and harmony. They are very simple rules. The rules of man and our enemy are based on ancient rules and traditions based on greed, violence, corruption, and the vicious and evil things. That's why Man has the technology to produce abundance, and the world is hungry. Not to share is one of Man's ancient rules. You use it or you lose it is one of the rules of God. The image of the Virgin Mary in that bank in Clearwater, Florida, tells us, "Man, for the love to money and not to God and his neighbor, he's going to lose it all."

In the '70s I read an article in *The Reader's Digest* about a man or scientist who invented a chemical that, mixed with water, would turn the water into fuel in forty-eight hours. He said everybody could have their own reservoir and produce their own fuel. Later on I heard he got murdered for not wanting to sell his formula. That shows that Man is corrupted and doesn't want to share things. Also I heard the story of another man who invented a carburetor that would take a car 200 miles with one gallon of fuel. He sold his invention for fear of our enemy, who is evil and doesn't care about people. That shows us what kind of fake comedy we live in, and the world is hungry. Also, they're hiding the electrical cars because they want to only sell fuel and car parts. They were supposed to welcome the E.V.s and adjust to the new era.

As we know, Jesus said, "I'm the Morning Star." Well, a star has been visiting us. From the late '80s, from deep space, a star has been coming. It gets pretty close to Earth, and then it starts traveling parallel with the planet for a number of months, and then it goes back into deep space. I read an article in the early '90s in *Fate Magazine* which they got from one of the astronomy magazines. The scientists, astronomers, and astrophysicists said, "That star has a mind of its own." What they didn't know is that Archangels have the power to divert or manipulate meteors, comets, asteroids, etc. They also said, "That star could be very dangerous to our planet." Our enemy is blind and he doesn't see the danger coming. This may also be the star of Revelation 9.

As we know, our world is divided, people are divided, the church is divided, even the devils are divided, and there's a secret war going on under the table between the two sides. From time to time, God, the Archangels, and the Forces of Nature take part in that war. For every action there is a counter reaction. Our living God and the Angels are watching us, and they know everything about us.

Our world is like a big Titanic, and the captain is the devil, and the ship is going adrift because the captain is blind and he's going to sink it. Over the past thirty years we've seen several times a captain on a plane who hears the alarm because the plane is going to crash and the captain refuses to believe the alarm, and then they crash. The most recent case was a submarine's captain who refused to believe the alarm and they crashed into a mountain in the ocean. That's our enemy, that negative personality who refuses to believe that the end of the world is coming. In the '80s the devil came to me and said, "I am God, repeat after me!" So I told him, "I am the soul, a representative of the Universal Force." He started getting angry and said, "No, no, no. I am God, repeat after me."

So I said, "You're not making your heart beat, God is! You're not making the world turn, God is!" He's blind and stubborn to death. He's sinking the ship. Our enemy thinks that time does not exist in space, but it does. He's wrong. The Universal Force knows how to make 1 turn of the earth in 24 hours, at the same time the tilt for the seasons and 1 turn around the Sun in 1 year. Time does exist in space, and when there was time to heal the planet, they didn't do it, because our enemy refuses to believe that the Armageddon can happen.

In October 2003 the Sun made a huge blast, sending gasses, matter, and radiation toward the planet. The scientists and astrophysicists said it was going to hit Earth with the equivalent of 40 billion nuclear bombs. They miscalculated the speed of the blast, so it didn't happen. That was another warning from Our Father to the Devil. These near-miss asteroids are also warnings.

Our enemy prefers to die and sink the whole global *Titanic* to death rather than admit he's wrong and step down. That is why man in this world needs to make a big effort and free himself from his enemy. It is very important.

I heard in my meditations "The First Mountain is coming and the devil is going to regret not to having listened." If that happens, the devil needs to react right away and turn himself to God. Otherwise the rest of the Armageddon will follow.

Right now they can try to surrender to God; they can try to make a U-turn from all the materialism into spiritualism, and they can try to make some changes-but only our Divine Universal Force will decide if it's too late or not. Jesus, the Third Coming of Corinthians, is the Fulfillment of the Prophecy.

I love you,
Marcel

Cancer Story

Albuquerque, New Mexico, USA
April 6, 2007

In the mid '80s my mother, Paula, went through two cancer surgeries, and then I gave her some old natural medicine: garlic and lime, honey, raw vinegar, etc. All these are natural antibiotics, and when used regularly they increase our immune system. The white cells use them to provide the anti-bodies with a stronger substance to attack the viruses, germs, bacteria, cancer cells, etc.

Garlic and lime can be taken once or twice a week. We fill the blender to the blades with lime juice. Then we cut two cloves of garlic in small pieces and put it in the blender. Later on we can use three, five, or seven cloves. Then we blend it for three to four minutes and drink it when the stomach is empty, like in the middle of the morning. Then we brush our teeth. Then we go for a walk for thirty to forty-five minutes; otherwise it will sit there. With the walk it will pass to the blood system pretty quickly. We're not supposed to drink any water for one hour after we take it. If we cannot walk, then we can take sips during the day. This will increase our immune system. It also helps the bladder, the liver, and the lymphatic system, etc.

A fruit salad every day also has healing powers. Green salads also help. A positive attitude is very important. People with a negative attitude don't heal. Smile!

In the early '90s I heard in my meditations, "Exercise and stay young." The body renews itself through the exercise. I believe exercise is as important as food. The body needs it.

As we know they cure hams with honey. It is because honey is another natural antibiotic. A teaspoon of honey after every meal helps, and a table-spoon of raw vinegar before lunch and dinner also helps. Sun exposure for ten minutes once or twice a day is beneficial.

Also, it helps to know that God does really exist. There is a Divine Universal Force making the world turn and making life. This Force is also inside of us. It is our best friend and guide, so to pray and ask God to heal us is very important. Always keep the faith.

Twenty years after that cancer, my mother passed away in December 2006 from old age, and the cancer never returned. People should alternate the old and the new medicine.

Liver healing: In South America, there was a young lady at a fruit and juices store. One day I saw her face pale and yellow, so I asked her, "What's wrong?" She said, "My liver is quitting." I told her about the garlic and lime. She said, "I'll try it." About two months later I saw her again, and her color had come back. She smiled and said, "It worked!"

SPIRITUAL CIVILIZATION

FOR AFTER 2000 A.D.

By Marcel Marchand

Spiritual Civilization for after A.D. 2000 is Marcel Marchand's response to the fundamentally unbalanced nature of the world today. He asserts that society is mired in an awkward materialism created by the enemy of man. Seeking to assist humanity in breaking free of the devil's influence, this work is designed to help individuals to behave better and to feel better about themselves. If we as humans don't fix this world—the greed, violence, corruption, pollutions, and vicious and evil things that exist—then God, the Divine Universal Force that makes the world turn and creates life, is going to do it with the Armageddon, the Rapture of Souls, or the Day of God Almighty. If we want to one thousand years of peace and love, we need to care about each other and the beautiful Earth we have been given.

Spiritual Civilization for after A.D. 2000 offers an unflinching portrait of the alternative, of what we will face if we do not turn away from the enemy, but it is also a work that emphasizes the hope and potential of humanity.

About the Author

Marcel Marchand is a native of Colombia and currently resides in New Mexico, where he works as a carpenter and pursues a variety of interests, including swimming and camping.
